PROFILE

Software Engineer with 2+ years of experience in full-stack development, API integration, and database-driven system design. Skilled in frontend engineering, backend development, authentication/authorization systems, and scalable state management, with working knowledge of TypeScript and Azure AD. Experienced with React, Next.js, Redux, Node.js, Flask, MySQL, and MongoDB, deployed via Azure CI/CD pipelines. Collaborative engineer passionate about code quality, scalability, and continuous improvement in agile teams.

TECHNICAL SKILLS

- **Programming & Development:** JavaScript, TypeScript, Java, Python, C, ReactJS, Next.js, Redux, Node.js, Flask, Spring Boot, PHP, Flutter, Tailwind CSS, MaterialUI, Bootstrap
- **Database & Cloud:** MySQL, MongoDB, Supabase, Microsoft Azure, Git, CI/CD (GitHub Actions)
- **Authentication & Security:** JWT, Azure AD (Microsoft Entra ID)
- **Machine Learning & AI:** TensorFlow, Scikit-learn, Streamlit
- **Tools & Practices:** WordPress, Agile/Scrum, Postman, Selenium, Figma, Trello, Jira
- **Non-technical Skills:** Problem-solving, Communication, Team collaboration, Time management, Leadership, Self-motivated, Creativity, Decision-making

INDUSTRIAL EXPERIENCE

Software Engineer | GDC Consultants Ltd.

(Sep 2024 - Present)

New Zealand (remote)

- Developed scalable full-stack applications using ReactJS, Next.js, Redux, and MySQL, deployed on Microsoft Azure with automated CI/CD pipelines via GitHub Actions.
- Proposed and led a tender automation system, replacing manual document creation with streamlined workflows.
- Built reusable UI components and integrated APIs; managed database operations across MySQL and Supabase.
- Improved technical SEO across multiple projects, including site structure and performance factors.
- Collaborated in Agile teams on feature development, debugging, and system enhancements.

Software Engineering Intern | HasthiyaIT (Pvt) Ltd.

(Dec 2022- June 2023)

Sri Lanka

- Engineered end-to-end frontend and backend features for multiple web and mobile apps, delivering the PawprintID platform.
- Gathered client requirements, authored functional specifications, and showcased features to stakeholders, accelerating approval cycles.
- Accelerated mobile development proficiency, subsequently delivering features for three production apps.
- Worked with ReactJS, Flutter, Node.js, and MySQL in Agile environments, including debugging and code reviews.

PROJECTS

GDC Properties Platform | (GDC Consultants Ltd.)

(Feb 2026 - Present)

- Developed a full-stack property management platform supporting tenants, landlords, and administrators.
- Designed authentication, booking workflows, and rental application modules for multi-role property operations.
- Integrated payment gateway features, rental appraisal workflows, and financial reporting capabilities.
- Applied Redux-based state management and set up CI/CD pipelines with GitHub Actions for automated Azure deployment.
- **Stack:** ReactJS, Redux, Node.js, MySQL, Bootstrap, Microsoft Azure, Git

Tender Automation System | (GDC Consultants Ltd.)

(March 2026 - Present)

- Developed a web-based system to streamline tender preparation and submission workflows.
- Integrated role-based modules and automated document generation features.
- Built smart filtering, Redux-based state management, and CI/CD pipelines with GitHub Actions for automated Azure deployment.
- **Stack:** ReactJS, Redux, Python, MySQL, Bootstrap, Microsoft Azure, Git

Peak Pro – Business Website | (GDC Consultants Ltd.)

(Oct 2025)

- Developed and deployed a production-ready client-facing website for Peak Pro, a project management firm based in Waikato, New Zealand, live at peakpro.co.nz.
- Built responsive service, about, and project showcase pages, including a dynamic project gallery and contact form integration.
- **Stack:** WordPress, Elementor

'PawprintID' | (HasthiyaIT (Pvt) Ltd.)

(Jan - June 2023)

- Built a platform enabling pet owners to store and share medical history records securely.
- Developed the home page and CMS admin panels for managing resources and contact information.
- Built web and mobile screens for surgery/treatment tracking and viewing pet condition data.
- **Stack:** ReactJS, Bootstrap, Flutter, MySQL, NodeJS, Git, AWS

Clinical Management System | (University of Moratuwa, Sri Lanka)

(2021 - 2022)

- Developed a full-stack clinical management system to streamline workflow automation and service operations.
- Implemented authentication, lab report generation, notifications, and data visualization functionalities.
- Improved operational efficiency through centralized clinical workflow management features.
- **Stack:** ReactJS, Material UI, Node.js, MongoDB, Netlify, Heroku, Git

EDUCATION

BSc (Hons.) in Information Technology & Management

(Jan 2020 - June 2024)

University of Moratuwa, Sri Lanka

Moratuwa, Sri Lanka

- **CGPA:** 3.38 / 4.20
- **Research experience:** Breast Cancer Classification with Localization and Subtype Identification
 - Conducted research on breast cancer classification and subtype identification across Ultrasound, Mammogram, MRI, and Histopathology imaging modalities.
 - Combined five ultrasound datasets and developed CNN, transfer learning, and ensemble learning models for medical image classification.
 - Achieved **96.5% classification accuracy** and **91.14% subtype identification accuracy** for ultrasound image analysis, contributing to an overall system achieving **97.45% classification accuracy** and **94.58% subtype identification accuracy**.
 - Developed a web-based diagnostic platform for cancer classification, localization, and subtype identification.
 - Selected for presentation at the **Undergraduate Research Showcase – UoM Research Week 2024**.

EXTRACURRICULAR & LEADERSHIP ACTIVITIES

AIESEC in University of Moratuwa, Sri Lanka

(Dec 2020 - Feb 2022)

- Manager – Digital Experience & Information Management. Led leadership development events and contributed to HR portal initiatives and internship programs.

CERTIFICATIONS & ACHIEVEMENTS

- Undergraduate Research Showcase, University of Moratuwa – UoM Research Week 2024
- Microsoft Learn Student Ambassador, Microsoft | Alpha Milestone
- Hack Moral 4.0 2022 - Mini Hackathon, University of Moratuwa (7th place)
- CODE RUSH 2020 - Intra-faculty coding competition, University of Moratuwa (11th place)
- Best Manager Award, AIESEC Sri Lanka | CS Eminence 2021, Annual Awards Ceremony
- The Complete "Web Development" and "Python Pro" Bootcamps — Udemy
